Executive Summary

Experienced frontend developer with 1.6+ years in building high-performance web apps using React.js, JavaScript, and UI frameworks, adept at modern frontend practices, API integration, component-based architecture, and AI-assisted development. Ready to deliver business impact.

Skills

Language: JavaScript, HTML, CSS
Framework & Library: ReactJS, Redux, React Router, Vite, Shadcn UI, Tailwind CSS, Chakra UI, React Bootstrap.
Tools & Technology: Git, GitHub, Jira, Figma, Vs Code.

Experience

Bluewhiz Infotech Pvt Ltd, Dindigul   Aug 2024 - Present
Frontend Developer

- Utilized React.js to create and maintain high-performance web applications, optimizing state management and components for improved load times and user experience.
- Implemented lazy loading, code splitting, and caching strategies to enhance application performance, reducing initial load time by 35% and improving device responsiveness.
- Leveraged AI-assisted development tools to accelerate component development and reduce boilerplate coding by 20–25%.

Tech Stack: ReactJS, Redux, Javascript, Tailwind CSS, Chakra UI, Supabase.

Slash Mark IT Solutions Pvt Ltd, Remote Certificate   Nov 2023 - Feb 2024
Full Stack Developer Intern

- Proficient in modern frontend technologies like HTML5, CSS3, JavaScript, Bootstrap, and React.js, focusing on modular, responsive, and maintainable UI components following industry best practices and scalable architecture patterns.
- Integrated open-source APIs to retrieve real-time data, implementing efficient data fetching strategies, client-side caching, and robust error handling mechanisms to ensure high application reliability, reduced latency, and improved user experience.

Tech Stack: ReactJS, Javascript, Tailwind CSS, HTML5, CSS3, Bootstrap, API.

Education

Bachelor of Computer Applications   CGPA: 8.2
Adhiparasakthi College of Arts and Science, Ranipet   July 2021 - May 2024
Relevant Coursework: Web Development, Database Management, Operating Systems,
Data Structures and Algorithms.

Projects

Servewhiz – Business Operations Platform

- Led the front-end development of Servewhiz, Engineered high-performance React.js components with Chakra UI, enforced RBAC via Supabase Auth, configured protected routes, and architected global Redux-based state management for real-time data consistency.

Tech Stack - ReactJS, Redux, Chakra UI, Supabase.

Street Light Maintance Application

- Implemented React Native components with Supabase for real-time data binding, optimized query pagination, debouncing, and client-side caching and implemented Supabase Realtime for live maintenance ticket updates and role-based data visibility.

Tech Stack - React Native, Redux, Nativewind, Supabase.

RightBrains - Digital marketing agency website Live

- Delivered a responsive, animated interface to improve user engagement and navigation, and validated interactive lead capture forms to enhance input accuracy and streamline client communication workflows.

Tech Stack - ReactJs, Tailwind CSS, Framer Motion.
